Bi-fold Car Wash Doors

RYKO'S

ClearView Bi-Fold Car Wash Doors

gives your business maximum exposure while providing a very simple, reliable design made specifically for the car wash environment with security and service needs in mind.

ClearView

Bi-fold Car Wash Doors

- Made of heavy-duty aluminum, providing durability, heat retention and noise reduction.
- Available in differing heights ranging from 7' to 10'.
- ClearView doors are available in a variety of colors.
- Crystal clear polycarbonate windowpanes are virtually impact proof. Ryko ClearView doors let the light shine into your car wash bay.
- Ryko ClearView doors include pneumatic openers.
- Ryko ClearView doors open to the outside, taking up very little space compared to conventional car wash doors. ClearView doors will not drip water on the vehicle as it exits the dryer as conventional car wash doors are prone to do.
- Safety Reversing Sensors enclosed in the rubber bumpers on the edges of the doors insure customer safety.
- Control box comes with emergency open capabilities and a locking option to lock doors to prevent operation in the event of a power failure.
