Five Ways to Pay
Five Ways to Increase Profit

The RYKO AMTT System is the answer to all of those impulse buyers who drive away to get cash and never return.

The AMTT accepts coins, bills, credit cards, along with programmable wash cards.

With so many ways to pay, potential customers will never drive

The RYKO AMTT System is the answer to all of those impulse buyers who drive away to get cash and never return.

With so many ways to pay, potential customers will never drive away again.

USE THE RYKO SMART CARD WITH THE AMTT TRANSACTION CENTER TO BOOST REVENUE HIGHER

Program the RYKO Smart Card for any amount desired up to \$200 maximum. Each time the Smart Card is used in the RYKO AMTT, the amount of the wash selected is deducted from the Smart Card's balance.

When the balance of the Smart Card is reduced to \$0 it can be reprogrammed and used in the AMTT over and over again.

The Smart Card is the Smart Way to market and promote any car wash.

Contact your local RYKO representative to learn more about the revenue generating AMTT and RYKO Smart Card.

DESCRIPTION OF OPERATIONS

The most important function of RYKO's AMTT Activation System transaction center is the ease with which it works with your customers.

The LCD display and the ComSyst 32 work together to instruct customers with the car wash directions while at the same time suggesting revenue producing upgrades.

The RYKO AMTT and Code-A-Wash IV accounting and merchandising system combine to provide a merchandising team that is generating unparalleled revenues at locations across the country. With the ability to interface RYKO's merchandising equipment with existing cash registers and computer accounting systems, a car wash can become a completely accountable part of the entire operation.

The RYKO AMTT greets customers and instructs them to enter their form of payment: Cash, code, or card. Once the minimum amount needed to operate the car wash or the proper code has been inserted, the customer is then requested to make their choice of upgrades. It is like having a 24-hour car wash salesperson always standing at the entrance.

The AMTT is equipped with the ComSyst 32 communication system. This allows up to 32 pre-programmed or personal messages to provide information or instruction that coincides with the LCD display. This makes it easier for the customer to understand and upgrade their wash.

OTHER AMTT FEATURES

- Designed to accept \$1 and \$5 bills for customer convenience.
- Multi-message capability - up to 32 pre-programmed or personal messages.
- Stainless steel constructed outer housing for attractive, lasting appearance.
- Messages can be personalized to fit individual location needs.
- Vehicle detection system detects vehicle presence and gives friendly greeting and instructions.
- Built-in speaker and switch for easy connection to standard intercom system.
