

CODE-A-WASH IV

CUTTING-EDGE CAR WASH CONTROLLER & MANAGEMENT SYSTEM
AT THE TOUCH OF A FINGER!

NOW
WITH NEW, EXPANDED
CAPABILITIES AND
A USER-FRIENDLY
COLOR TOUCH
SCREEN

RELIABILITY - FLEXIBILITY - ACCOUNTABILITY - PROFITABILITY

Ryko Manufacturing Company's Code-A-Wash IV car wash controller is simply the most versatile electronic car wash controller & management system available.

USER-FRIENDLY CAR WASH CONTROLLER & MANAGEMENT

Now with expanded capabilities and color touch screen.

Ryko Manufacturing Company manufactures its own code generating activation system. No other car wash manufacturer has such built-in, by design compatibility! Now, one of the most reliable and flexible car wash controller & management systems in the industry has just gotten better.

RELIABILITY

The Code-A-Wash IV is now more reliable than ever before. The brightly lit, color touch screen allows the operator to issue commands and to make changes to the car wash with just the touch of a finger. The Code-A-Wash IV features a ruggedly constructed, space saving console and a fast, low-maintenance thermal printer for quick access to easy-to-read tickets and reports.

FLEXIBILITY

The Code-A-Wash IV is now more flexible than ever before. Ryko's patent pending Variable Wash Speed functions are fully incorporated in the Code-A-Wash IV, enabling changes of wash speed to be made instantly from the console. Menu and price changes, wash discounts and other important wash functions can also be changed with just the touch of a finger.

ACCOUNTABILITY

The Code-A-Wash IV offers a wider variety of reports and functions that will help operators keep track of car wash activity. Shift Reports, Manager Reports, Methods of Transactions, Code History and Fleet Account Activity are among the many reports available through the Code-A-Wash IV which are designed to keep operators aware of car wash profitability.

OTHER EXPANDED CAPABILITIES INCLUDE:

- More comprehensive reports complete with graphic representations for a more complete statistical analysis
- Expanded diagnostics for Ease in Trouble Shooting of Car Wash Functions
- Extended Fleet and Regular Code Retention
- Provides Credit Card Transaction Receipts for the AMTT and the AMTT CS
- Coin Box Wash Key Conversion Allows any 4 Programmed Wash Packages to be used at the Coin Box
