VELOCITY

The Velocity Vacuum line can be operated by using the optional code activation system or by inserting coins

The Velocity Vacuum line is constructed of heavy-gauge stainless steel for long-lasting durability

The Velocity Vacuum line has optional dual clean-out doors for ease of cleaning and maintenance

**OUR NEW
VELOCITY VACUUM
IS A POWERFUL YET
ECONOMICAL PROFIT BUILDER
FOR ANY CAR WASH LOCATION.**

The attractive **Velocity Vacuum** has the power to take care of your customer's car care needs. This round style vacuum is constructed of rugged stainless steel and features a powerful electric motor and two filter bag design clean out.

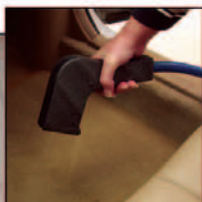

The Velocity Vacuum offers a variety of activation methods for convenience to your customers and higher return on investment for you.

Many options are available for the Velocity Vacuum... from an eye-catching lighted plastic dome (available in an assortment of colors) to a built-in air compressor for the use of your customers.

VORTEX

FRAGRANCE/VACUUM COMBINATION

The Vortex Vacuum line may be operated by using the optional code activation system or by inserting coins

SHAMPOO/VACUUM COMBINATION

OUR VORTEX COMBINATION VACUUM LINE GIVES YOU TWO WAYS TO INCREASE YOUR PROFITS

The Vortex Fragrance Vacuum delivers powerful suction power and also dispenses your choice of three pleasing scents.

The Vortex Shampoo Vacuum dispenses a rich, deep cleaning shampoo along with potent vacuum power.

Our Vortex Vacuums are easily activated using cash, code or, if your facility is equipped with the

Ryko Touch and Go Credit Card Acceptance system, a credit card. The Vortex line is constructed of rugged stainless steel for long-lasting durability. Each Vortex is powered by two potent electric motors and features dual filter bag clean out.

Many options are available for the Vortex line of combination vacuums, making it the right choice for any car wash location.

The Vortex Vacuum line is powered by two heavy-duty 1.4 H.P. motors.
